

TAX IN AFRICA

**Harnessing Technology and Innovation
for Effective Tax Administration**

24th – 27th June 2025

***Radisson Blu Hotel
Livingstone, Zambia***

Introduction

Premier Knowledge Centre presents The “Tax in Africa” workshop, this is a meticulously designed 4-day program aimed at providing participants with a comprehensive understanding of the current and emerging trends in tax administration across the African continent. As Africa continues to experience rapid economic growth and integration, the need for efficient and effective tax systems has never been more critical. This workshop will delve into the latest technological advancements and innovative practices that are transforming tax administration, ensuring that participants are well-equipped to navigate the complexities of the modern tax landscape.

Participants will have the unique opportunity to learn from leading tax expert, Dr. Abdallah Ali-Nakyea from Ghana, whose extensive experience and insights will provide invaluable perspectives on the challenges and opportunities in African tax systems. The workshop will cover a wide range of topics, from the digitalization of tax processes to the impact of the African Continental Free Trade Area (AfCFTA) on tax policies.

By attending this workshop, participants will gain practical skills and knowledge that can be directly applied to their professional roles, enhancing their ability to contribute to the development of robust and efficient tax systems in their respective countries. The workshop will also provide ample networking opportunities, allowing participants to connect with peers and experts from across the continent.

Latest Trends: Western Countries vs. African Countries

Western Countries:

- ◆ **Digital Transformation:** Western countries are leading in the adoption of digital tax administration systems, with extensive use of AI, blockchain, and big data analytics to enhance tax compliance and reduce fraud.
- ◆ **E-Invoicing and E-Filing:** The implementation of e-invoicing and e-filing systems is widespread, making tax processes more efficient and transparent.
- ◆ **Tax Policy Innovations:** There is a strong focus on creating tax policies that support digital economies and address challenges posed by digital transactions.

African Countries:

- ◆ **Gradual Digitalization:** African countries are gradually adopting digital tax systems, with significant progress in countries like Kenya and South Africa.
- ◆ **Capacity Building:** Efforts are being made to build capacity and infrastructure to support digital tax administration.
- ◆ **Regional Integration:** The African Continental Free Trade Area (AfCFTA) is driving changes in tax policies to facilitate intra-African trade.
